NEWSPAPERARCHIVE®

DAILY NEVADA STATE JOURNAL

C. C. Powning, Editor & Proprietor.

WEDNESDAY.....SEPTEMBER 1, 1880.

FOR PRESIDENT,

JAMES A. GARFIELD,

Of Ohio.

FOR VICE PRESIDENT,

CHESTER A. ARTHUR,

Of New York.

Garfield is reported to be well pleased with the outlook in New York.

Shall the solid South rule the country? That is the real question.

Shall the elections in this great country be controlled by fraud and violence such as are constantly practiced throughout the solid South?

All that the Rebels fought for in the extra session of Congress they are fighting for now. Shall they gain now what they failed to gain then?

Shall a small corner of the country that pays only one twelfth of the revenue rule over that portion of the country that pays eleven twelfths of the revenue?

The San Francisco Board of Supervisors Monday evening passed resolutions tendering the freedom of the city to President Hayes, and appointed a committee to prepare for his reception.

The JOURNAL will say, once for all, that it honestly believes that the work of construction on the railroad north from Reno will be commenced by the 1st of October, and thirty miles of the road will be laid by the 1st of January.

The quarterly interest on the 4½ per cent loan falls due at the Treasury on the 1st of September. This interest will amount to $2,800,000. The interest on these 4½ bonds is the only accruing interest to be met by the government in September.

On the 9th of last month E. S. Tanner of Attanum valley, Washington Territory, was drowned. He had a crop of grain ripening, but his neighbors turned out and cut and stacked the whole crop, over fifty men working, and refusing all reward.

Candelaria is fast assuming metropolitan proportions. It has two political clubs, and is shortly to have a bank and secret organizations. There is nothing said about a church building yet, but there probably will be as soon as everything else has been established.

E. H. Gove, Chairman of the Maine Greenback State Committee and Secretary of State under Governor Garcelon, has written a letter to the Greenback State Committee resigning his position and membership in their organization, and declaring his purpose to hereafter act with the Republicans.

The suggestion of our evening cotem, that Hon. J. C. Hagerman should go to the front as the Democratic candidate for U. S. Senator is out of place. There is no possibility of any Democrat securing that great prize, and then, again, Hagerman is in training for the Gubernatorial fight two years hence.

The construction force engaged on the extension of the Northern Pacific Railroad west of the Missouri, will complete the grading to the Yellowstone early in October. The President of the road has directed the Chief Engineer to transfer the working force directly across to the located line of the Yellowstone division, with the intent to reach and pass Miles City and Fort Keogh next July,

Henry Watterson is an intense Democrat, but he served with Garfield in Congress, and knows him well, and in a recent interview he says "that he shall take the opportunity offered by the first campaign speech which he makes to put his foot down, so far as he is concerned, upon the idea that General Garfield is not an honest man. He knows him well, and declares his belief that he is not a corrupt man."

The commissioners of the Freedmen's Savings and Trust Company have declared a dividend of ten per cent and will commence paying it on the 1st of September. The amount required to pay this dividend is $296,368 29, which, added to the thirty per cent heretofore declared and the special deposits, aggregates the sum of $1,258,936 47, which has been divided among more than 61,000 creditors of the thirty-three branches of the company. The Commissioners expect to be able to pay another dividend of ten per cent when the company's banking house and adjacent property in Washington is sold and other remaining

PROPOSED AMENDMENT.

The proposed amendment to the Constitution, changing the time of the meeting of the Legislature from the first Monday in January to the first Monday in February, is now being advertised throughout the State for the information of the people. Before this amendment will be in proper form for the people to vote upon it will have to run the gauntlet of the next Legislature, when should it meet the approval of that body, the voters will be called upon to accept or reject it at the election in 1882. The object of the amendment is a good one. Under the present system the reports of the State officers are not submitted to the Legislature until late in the first month of the session. Thus for nearly thirty days legislators are without data to frame appropriate and needed legislation, and everything has to be rushed through at the end. By changing the time of the meeting of the Legislature to the date named in the proposed amendment, all delay will be avoided, and members can know the exact condition of State affairs on the first day of the session.

TILDEN'S INCOME TAX SUIT.

The suit against Samuel J. Tilden, for non-payment of his income tax, has dragged along for several years, as if it was desirable to show to what length of time an important case could be delayed. We have no doubt the people are anxious to have their curiosity satisfied by a decision in this somewhat notorious proceeding. We find in some Washington correspondence a statement of a few of the causes which have resulted in the continued postponement of the suit, and as they are not devoid of interest we append the following:

A prominent officer of the Internal Revenue Bureau is authority for the statement that the Government was fully prepared last Spring to begin the direct prosecution of the case against Mr. Samuel J. Tilden for non-payment of his income tax, as required by the construction put upon the law by the Treasury Department. The case was postponed, he says, until next November at the suggestion of the counsel for the Government, the defendant, of course, interposing no objection to delay. The reason for that postponement has just transpired, and the report is that the United States District Attorney and the special counsel for the United States in this case were both "stalwart" Grant men, and had the same faith in the nomination of General Grant at Chicago that they had in the nomination of Mr. Tilden by the Democracy at Cincinnati. The array of evidence which the Government had collected to sustain its case against Mr. Tilden, it was believed, if made known before the nominating convention met in Cincinnati, would utterly destroy all hopes of his selection by the Democrats. That there might be no obstacle to his nomination so far as they could prevent it was decided not to press the suit at that time, but to allow it to go over to the Fall term of the United States court. If Grant was defeated then the case was to be pressed for trial in November and the whole force of the accumulated facts was to be let loose to Mr. Tilden's detriment. The District Attorney and the special counsel were both delegates to the Chicago Convention and belong to the alleged "Old Guard." They lament that the programme was not carried out, but will, it is understood now, be more zealous for the prosecution of the case next Fall, especially if the Republican electors should be in a minority, in order that the next administration may not obscure the case by a change of counsel. This is the will of the Secretary of the Treasury, who does not see any good reason for further delay.

Dean Buchanan, the unprincipled Philadelphia doctor, is a fraud of sublime proportions. For years he sold diplomas to any quack who wished to set up in business, and when he was arrested for the offense, he managed to get bail; then to get out of the scrape, and at the same time free his bondsmen he hired an expert swimmer to disguise himself to look like him and jump off a boat and pretend suicide. The plan was carried out, but suspicions were aroused, investigation followed, and the doctor was found in Canada, basking under the decidedly suggestive name of Fairchild.

What particular credit is it to General Hancock that he was true to the Union? The Union educated him, fed and honored him. If he had not been true to the Union, he would, like Lee, Davis, Beauregard and others, have been an ingrate, traitor and perjurer. Millions are true to the Union and fought as bravely as he fought, from choice. As an officer of the regular army he had to fight or be dishonored.

The Republicans of Washoe should put their best men to the front. No man should be nominated, who is not strong in himself, and with each one a strong candidate, the ticket will be invincible, and every man, from top to bottom, will be elected. To secure this should be the aim of every good Republican.

Will the people of the North like to dance to rebel music, and witness the bankruptcy of every mercantile and business house in the country? Forty-seven Electoral votes given to Hancock by the North will attain this happy

A QUESTION OF RESIDENCE.

The Carson Appeal, opposing Sharon, claims that he is not a resident and that if elected Senator his seat will afterwards be contested under a clause in section 3, article 1 in the Constitution of the United States, which reads as follows:

No person shall be a Senator who shall not have attained the age of 30 years and been nine years a citizen of the United States, and who shall not, when elected, be a resident of that State from which he is chosen.

The Appeal says:

The legal definition of the word inhabitant is found in Burdill's Law Dictionary, volume 11, page 77:

INHABITANT. [Lat. inhabitans, from inhabitare, from in, in, and habitare, to dwell.] One who dwells or resides permanently in a place. Webster—One who has a fixed and permanent abode in a place. A resident and inhabitant mean the same thing. 2 Kent's Com. 430, 431, note. 20 Johns R. 208. Walworth, C. S Wendell's R. 140. But citizen and inhabitants are not synonymous. 12 Peters' R 219, 329, Barbour, J. The Lat. inhabitare, the root of this word, imports by its very construction, frequency, constancy, permanency, habit, closeness of connection, attachment both physical and moral, and the word in serves to give additional force to these senses.

Now the fact that Sharon claims a residence in Nevada from the fact that he voted at the last primaries in Virginia City does not cover the ground required by the Constitution of the United States. He must be even more than a technical citizen, he must be a constant, permanent and regular physical inhabitant of the United States.

In answer to the above Appeal article is the annexed communication to the Enterprise:

EDITOR ENTERPRISE: Since the question of want of residence is so strongly urged as an objection to Senator Sharon as a candidate for re-election to the United States Senate, it will not be out of place to consider what constitutes a residence True, we have the authority of the Carson Appeal that he (Sharon) must be a positive resident of the State. I suppose the Appeal editor will not deny that Mr. Sharon was such resident when elected in 1874. There certainly was no journal in the State that fought stronger for his election or that abused the few Republicans who opposed him, with more vehemence than did this same Carson Appeal, and the mantle of editorship hangs principally on the same shoulders now as then. At that time Mr. Sharon was declared a citizen by a large majority of the voting population of Nevada, who thus made him their agent for a term of six years, and I submit that, as a matter of law and common sense, as such agent he cannot lose his residence within the State, but may return at any time. He registered and voted as would any citizen who had been absent on business of any other character. As well might a person sent on a foreign mission forfeit his residence as has Sharon by his absence from Nevada. What has been the practice of Congressmen from Nevada? Is Sharon an exception to the general rule? Was Stewart a resident of Nevada on the Appeal basis after being elected to the Senate? How much time did Nye and Stewart expend in Nevada outside of that necessary to procure their re-election?

No man lives in Nevada for its pleasures, and a Senator of the United States is not expected to spend his leisure in any particular locality. Is it not a fact, Mr. Editor, that many of our greatest statesmen procure residences in Washington and vicinity and never think of returning to their constituency until their term of office expires?

The plot being concocted in Virginia to put Hillhouse, a Democrat, in the Senatorial chair of Nevada, is all in the eye of the Appeal editor. It is barely possible that some of the ultra Senators from the Solid South might join with the Appeal in the foolish attempt to deprive Sharon of his seat if elected on so flimsy a pretense as the want of citizenship, but no honorable Democrat from the North would for a moment entertain such a position. I repeat that, so long as Mr. Sharon is the accredited agent of Nevada, he cannot, except by impeachment, lose the residence he required before and by such election. If by any act of commission or omission he has lost caste with the people of this State, their only remedy is to refuse to renew his commission. They cannot rightfully charge him with having forfeited his citizenship because he has not set himself down in Virginia, where he could not possibly advance the interests of the State or serve any purpose in the interests of his constituents.

Sharon was serenaded Monday evening in Virginia, and in response to cries for a speech, made his appearance on the International balcony, and said:

Gentlemen, I thank you for the compliment you have paid me. I am pleased to meet and greet you. Gentlemen, our great Republican party is like the Comstock lode; the deeper you go into it the richer it becomes in gold and silver. Let us all stand by it. I shall stand by it as long as the stars shine in the heavens—I am for the Union as long as I have life. We now see arrayed for a grand struggle the two great parties of the Union—one is for it and the other, I am sorry to say, is against it. Let all good men join their strength and strive for its perpetuation.

"Again I say I thank you and must now bid you good night. On some other occasion I shall speak to you on the great issues of the day. Good night to all."

The Enterprise adds:

During his brief talk the Senator was repeatedly applauded by a clapping of hands by those in the streets. There was some disappointment that the talk was not longer, but a brisk breeze was blowing and all that was said could not be distinctly heard, even by those immediately below the speaker. The wind whirled away words here and there; it was quite cold and was far from pleas-

or

CALIFORNIA'S SENATOR.

The San Francisco correspondent of the New York Herald speculates as follows concerning the next U. S. Senator from California:

The aspirant for Senatorial honors on the Republican side most prominent and most likely to concentrate the strength of his party is General John F. Miller. He is wealthy, and his position in his party is equal to that of any other, if not better, as matters are. But with the aid of the moneyed influence he can command he can surpass all competitors. It is to his advantage, moreover, that he has conspicuously championed the workingmen's side of the Chinese question, and this of itself will prove of very potential service to him. He is preferred to Booth by the leading and most active portion of his own party because of his more positive character and his superior ability as a party chieftain. He is rich and somewhat aristocratic, yet is more in accord and sympathy with the rank and file, with the people generally, in fact, than Senator Booth, who is regarded as too much disposed to exclusiveness in his political as well as in his social life and habits. The masses of the party regard Mr. Booth as a man more given to polished oratorical performances than to the active work of party leadership, and they think he sacrifices his friends, his supporters and his party to his superior sense of personal propriety and his elegant indolence in the pursuit of pleasures and delights more congenial to his high wrought tastes. He lacks the vim and force which distinguished Senator Sargent, and seems desirous of holding himself aloof from the multitude. He impresses audiences and charms admirers, but he does not win his way into the hearts of the great army of followers and has not the faculty of warming the workers of the organization to cleave unto him as with hooks of steel through every emergency. He is of calm, cool, calculating nature, with much refined rigidity of personal mannerism and scholarly in his habits and speech. Accordingly he has only a few earnest supporters, and these are not themselves of a class to accomplish much in the ceaseless, energetic, zealous, hot work of a difficult and fierce Senatorial contest. The qualities in which Senator Booth is most deficient are the very qualities most prominent and recognized in General Miller, who is an astute political manager, of winning address, popular manners and keenly alive to all the arts and perfect in all the blandishments which prevail with the average legislator who has a vote for United States Senator. But beyond personal considerations, General Miller has that most essential auxiliary power behind him—almost unlimited capital—and this alone, as Senatorial elections have gone for years in the Pacific States, notably in California, can be safely reckoned as the controlling power when all other conditions are anything near equal. It is therefore a reasonable venture to assume that General John F. Miller will succeed to the seat in the Senate now occupied by Mr. Newton Booth.

For $500

While Mr. Yerington was here yesterday he was waited upon by Mr. Powning, on behalf of the Agricultural Society, to ascertain how much the V. & T. R. R. would charge to transport the six military companies of the First Brigade to and from the State Fair, provided the Governor ordered a review. The price was finally put at $500, which low sum will probably be paid by the Society in order to have a review of the militia, especially if President Hayes shall be here.

Another Road.

Steve Ford is in from Alturas soliciting aid from Reno to help build a road from Alturas to Buntingville, whereby all the business of that section will be diverted from Reading to Reno. The estimated cost of the proposed road is $1,800, of which Reno is expected to furnish $500.

This is the day set apart by the Republican County Central Committee for the holding of primaries in the various precincts for the election of delegates to the County Convention, which meetes next Tuesday. The polls will be open at the Justice's Court in Reno from 3 to 8 P. M.

The Reno Seminary.

Bishop Whitaker passed through on last night's train, says the Carson Times, en route to Reno to look after the affairs of the "School for Girls." It is gratifying to learn from the Bishop that the seminary opens under highly favorable auspices and with a larger attendance than the past two years has seen. When the school first began about one-half of its pupils were from Virginia City; now they are from the principal towns of the State, from Carson to Pioche. The corps of teachers numbers six, and the facilities for a thorough education are perfect.

Pritchard in Prison.

J. T. Pritchard, the murderer of officer Symons, of Gold Hill, is exhibiting his natural disposition in State Prison. The Carson Tribune says he worked a few days in the stone quarry and then refused to do another stroke of work, because he was tired. He is now confined in the dungeon for insubordinacy.

The Eureka Leader has the following handsome notice of W. T. Hanford:

Among the aspirants for legislative nomination on the Republican side in Washoe county we see the name of W. T. Hanford mentioned. The Washoe Republicans can make no better nomination. His four years service as Deputy Controller, together with his natural ability, have fitted him to legislate understandingly for the best interests of the State. The financial situation, and the prospects for the immediate future, are such that the services of such a man as Hanford in shaping legislation to meet the changed aspect of affairs, and to keep State taxation to the lowest possible point, would be of inestimable value. Besides this, in the legislation that Washoe will ask for, Hanford's rustling powers and personal popularity, notably with the delegations from the Eastern part of the State, where he lived for many years, will be found greatly beneficial to his constituents. The cold fact is, that the Washoe Republicans will make a mistake if they don't nominate W. T. Hanford, and the county will make another if it does not elect him to the Assembly.

The total coinage at the Carson Mint during August is $118,000; $40,000 in half eagles and $78,000 in standard silver dollars.

There are at present 148 prisoners in the State Prison at Carson, twelve of whom are Chinamen.

Not Settled by the War.

[Colonel R. G. Ingersoll.]

After four years of war in the United States, the questions that we endeavored to settle by the sword are as unsettled as they were in 1859. These questions must be settled not only by the bayonet, but by argument. All that the war settled is who were the strongest. War only makes the contestants stop and listen, and the result has to be argued out, not fought out. And so to-day we are arguing the question in defence of which millions of men risked their lives, and that question is just as open and unsettled to-night as it was then.

Dispatches from various points in the Northwestern States tell of continued damage to corn from the protracted drought. This is especially true of many of the counties of Illinois, where the absence of rain has caused great injury to late planted corn.

The losses by the Eureka (Nevada) fire are said by the adjusters not to exceed $300,000, instead of $1,000,000, as reported. The insurance is about $210,000. The Home Mutual, which settled its loss for about $10,000, has canceled all its policies in the town, feeling that it is insecure against fire because of an inadequate water supply.—[Sacramento

WILLIAM H. BEATTY,

FOR CONGRESS

ROLLIN M. DAGGETT.

Resolutions Adopted by the Republican State Convention:

Resolved, That the platform of principles adopted by the National Republican Convention at Chicago in June deserves and receives the approval and hearty endorsement of all Republicans of Nevada.

Resolved, That the hordes of Chinese that are coming in upon our shores to eat our substance are destroying our country, impoverishing our mines, miners and laborers, debauching our youth and making both men and women lower in the scale of humanity This evil must and shall be stopped, and to this end we pledge the entire strength of the Republican party. In the language of our great leader, we regard the immigration of Asiatics to the United States as little less than a servile invasion Should the Commissioners now in negotiation with the Chinese Government fail to secure by the first of next January such a modification of the Burlingame Treaty as will practically put an end to the influx of Chinese to this country, we demand that the treaty then be promptly annulled, and such laws enacted as will relieve us at once and forever of the Asiatic scourge now menacing the well being of the Republic,

Resolved, That we most heartily indorse the general financial policy of the Republican party, which, in spite of every opposition on the part of the Democracy, has led to the resumption of specie payments, the raising of our National credit to a height never before known, and the restoration of National prosperity But we also demand the complete restoration of silver coin to its former position by the side of gold, and for the purpose of attaining that end we hold it to be the duty of the General Government, through the authorization of Congress, to coin into standard dollars or other legal tender currency, at the cost of coinage and for the benefit of the producer, the entire produce of the country, and relieve the mining industry from the loss attending the shipment to, and sale of silver bullion in foreign markets. As mining for the precious metals is the leading industry of Nevada we are inflexibly opposed to the bill reported by the Committee on Mines and Mining and now before the House of Representatives, prohibiting the following of fissure veins or deposits beyond vertical lines of surface boundaries, and we urge our representatives in both Houses of Congress to continue their efforts for its defeat Such a restriction would work disaster to the labors of the prospector and seriously retard the development of the mineral riches of the West, and we cordially endorse the action of our Representative, the Hon E. M. Daggett, in this behalf

Resolved, That the Republican party claims it to be the right and duty of the State and Territorial Legislatures to regulate and restrict the charges of railroads exclusively within their respective boundaries, and that it is no less the constitutional right than positive duty of Congress to regulate tariffs and restrict the charges of inter-State railroads

Resolved, That while we congratulate the country on the successful resumption of specie payments and the splendid financial condition of the Republic, we are in favor of restricting the issuance of National and State legal tender notes to denominations of not less than five dollars thus creating an increased home demand as a circulating medium for the precious metals which our mines are annually yielding

Resolved That General James A Garfield and Chester A Arthur by their services to the country by their devotion to principle and by their unspotted reputation as men and as citizens, are deserving of united and earnest support of all the loyal people of the United States for President and Vice President We rejoice in their nomination and pledge to them the Electoral vote of Nevada at the ensuing election by an overwhelming majority

NATIONAL REPUBLICAN PLATFORM.

THE FOLLOWING IS THE PLATFORM of the National Republican Party adopted by the Chicago Convention

Republican rule has restored upon a solid basis payment in coin for all the national obligations, and has given us a currency absolutely good and legal, and equal in every part of our extended country. It has lifted the credit of the nation from the point where six per cent. bonds sold at 86, to that where four per cent bonds are eagerly sought at a premium Under its administration railways have increased from 31 000 miles in 1860 to more than 82,000 miles in 1879 Our foreign trade has increased from $700,000,000 to $1,150,000,000 in the same time, and our exports, which were $20,000,000 less than our imports in 1879 Without resorting to loans, it has, since the war closed, defrayed the ordinary expenses of Government, besides the accruing interest on the public debt, and disbursed annually more than $30,000,000 for soldiers' pensions It has paid $880,000,000 of the public debt, and by refunding the balance at lower rates has reduced the annual interest charge from nearly $151,000,000 to less than $89,000,000 All the industries of the country have revived, labor is in demand, wages have increased, and throughout the entire country there is evidence of a coming prosperity greater than we have ever enjoyed Upon this record the Republican party asks for the continued confidence and support of the people, and this Convention submits for their approval the following statements of the principle and purpose which will continue to guide and inspire its efforts

THE REPUBLICAN POLICY

First—We affirm that the work of the last twenty-one years has been such as to commend itself to the favor of the nation, and that the fruits of the costly victories which we have achieved through immense difficulties should be preserved That the peace regained should be cherished That the dissevered Union, now happily restored, should be perpetuated, and that the liberties secured to this generation should be transmitted undiminished to future generations That the order established and the credit acquired should never be imperilled That the pensions promised should be paid That the debt so much reduced should be extinguished by the full payment of every dollar thereof That the reviving industries should be further promoted, and that the commerce already so great should be steadily encouraged

A NATION, NOT A CONFEDERACY.

Second—The Constitution of the United States is the supreme law, and not a mere contract. Out of the confederated States it made a sovereign nation Some powers are denied to the nation, while others are retained by the States, but the boundary between the powers delegated and those reserved is to be determined by National and not by State tribunals

POPULAR EDUCATION

Third—The work of popular education is one left to the care of the several States but it is the duty of the National Government to aid that work to the extent of its constitutional ability The intelligence of the nation is but the aggregate of the intelligence in the several States, and the destiny of the nation must be guided, not by the genius of any one State, but by the average genius of all

PROPOSED CONSTITUTIONAL AMENDMENT

Fourth—The Constitution wisely forbids Congress to make any law respecting an establishment of religion, but it is idle to hope that the nation can be protected against the influence of sectarianism, while each State is exposed to its particular domination We therefore recommend that the Constitution be so amended as to lay some prohibitions upon the legislature of each State, and to forbid the appropriation of the public funds to the support of sectarian schools,

DUTIES OF THE DAY.

Fifth—We reaffirm the belief avowed in 1876, that the duties levied for the purpose of revenues should so discriminate as to favor American labor. That no further grant of the public domain should be made to any railroad or other corporation That slavery having perished in the States, its twin barbarity, polygamy, must die in the Territories That everywhere the protection accorded to a citizen of American birth must be secured to citizens by American adoption That it is the duty of Congress to develop and improve our watercourses and harbors, but we insist that further subsidies to private persons or corporations must cease That the obligations to the men who preserved its integrity in the day of battle are undiminished by the lapse of fifteen years since their final victory Their perpetual honor is and shall forever be the grateful privilege and the sacred duty of the American people

THE CHINESE PLANK

Sixth—Since the authority to regulate immigration and intercourse between the United States and foreign nations rests with the Congress of the United States and its treaty making powers, that the Republican party, regarding the unrestricted immigration of Chinese as an evil of great magnitude invokes the exercise of the power to restrain and limit that immigration by the enactment of such just, humane and reasonable provisions as will produce that result,

COMMENDATION OF HAYES

Seventh—That the purity and patriotism which characterizes the earlier career of Rutherford B Hayes in peace and war, and which guided the thought of his immediate predecessor to him for a Presidential candidate, have continued to inspire him in his career as Chief Executive, and that history will accord to his administration the honors which are due to an efficient, just and courageous fulfillment of the public business, and will honor his interposition between the people and proposed partisan laws

ARRAIGNMENT OF THE DEMOCRACY

Eighth—We charge up in the Democratic party the habitual sacrifice of patriotism and justice to a supreme and unsatiable lust for office and patronage that to obtain possession of the National and State governments and the control of place and position, they have obstructed all the efforts to preserve the purity and conserve the freedom of suffrage, have denied fraudulent certificates and returns, have labored to unseat lawfully elected members of Congress, to secure at all hazards the vote of the majority of the States in the House of Representatives, have endeavored to occupy by force and fraud places of trust given to others by the people of Maine, and rescued by the courage and action of Maine's patriotic sons, have by methods, vicious in principle and tyrannical in practice, attached partisan legislation to appropriation bills, have crushed the rights of individuals, and vindicated the principles and sought the favor of rebellion against the nation, and have endeavored to obliterate the sacred memories of the war, and to overcome its inestimable good results—freedom and individual equality We affirm it to be the duty and purpose of the Republican party to use all the legitimate means of this Union to secure the perfect harmony which may be practicable, and we submit to the practical, sensible people of the United States to say whether it would not be dangerous to the best interest of our country at this time to surrender the administration of the National Government to a party which seeks to overthrow the existing policy under which we are so prosperous, and thus bring destruction and confusion where there is now order, confidence and hope.

Ninth—The equal, and steady, and complete enforcement of the laws, and the protection of all our citizens in the enjoyment of all privileges and immunity guaranteed by the Constitution, are the first duties of the nation

Tenth—The dangers of a "Solid South" can only be averted by a faithful performance of every promise which the nation has made to the citizen The execution of the laws, and the punishment of all those who violate them, are the only safe methods by which an enduring peace can be secured and genuine prosperity established throughout the South Whatever promises the nation makes the nation must perform A nation cannot with safety relegate this duty to the States The "Solid South" must be divided by the peaceful agencies of the ballot, and all honest opinions must there find free expression To this end the honest voter must be protected against terrorism, violence or fraud

Eleventh—And we affirm it to be the duty and the purpose of the Republican party to use all legitimate means to restore all the States of this Union to the most perfect harmony which may be possible, and we submit to the practical, sensible people of these United States to say whether it would not be dangerous to the dearest interests of our country at this time to surrender the administration of the National Government to a party which seeks to overthrow the existing policy under which we are so prosperous, and thus bring distrust and confusion where there is now order, confidence and hope.

Twelfth—The Republican party adhering to the principles affirmed by its last National Convention of respect for the constitutional rules governing appointments to office, adopts the declaration of President Hayes that the reform of the civil service should be thorough, radical and complete To this end it demands the co-operation of the legislature with the executive departments of the Government, and that Congress shall so legislate that fitness, ascertained by proper practical tests, shall admit to the
